

## **CLAIMS**

After having sufficiently described this invention, I consider it as a novelty, therefore, I claim of my exclusive ownership, the contents of the following clauses:

1. A reusable device to heat up and/or keep food warm, characterized because in a combined way it consists of: a) a HEATER (1) device, which may be used more than once; b) a containing THERMAL BAG (3), which includes a first wall and a second wall joined by their outer boundaries, so that they define a bag with one entry; a middle wall joined to and placed between the first and second wall, so that a first compartment (5) where the food to be heated will be placed and a second compartment (4) where the removable HEATER (1) device will be placed are defined.
2. A reusable device to heat up and/or keep food warm as claimed in clause 1, characterized as well because the first and second walls are made of an isolating fiber (6)
3. A reusable device to heat up and/or keep food warm as claimed in clause 1, characterized because the HEATER (1) device consists of a sealed plastic bag, full of liquid

and a TRIGGER (2) immersed in liquid, which operates to make the device start heating, after such TRIGGER (2) has been actuated by a user.
